APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 26279, Certificate 9097 is issued subject to the terms and conditions imposed in said Permit 26279, Certificate 9097 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

The well under Permit 26279, Certificate 9097 shall be plugged within 30 days from the issuance of this permit. The plugging and abandonment must be in accordance with Chapter 534 of the Nevada Administrative Code.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.985 cubic feet per second., but not to exceed 32.50
acre-feet annually, and not to exceed a yearly duty of 4.0 acre-feet per acre
of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before..... March 8, 1994

Proof of completion of work shall be filed before..... April 8, 1994

Application of water to beneficial use shall be made on or before..... March 8, 1997

Proof of the application of water to beneficial use shall be filed on or before..... April 8, 1997
